Dear Sir/Madam

Thank you for your interest in Onedayinmylife Productions. We are a young, creative team of qualified professionals with many years of experience in the media industry.

Our style is modern and simple, yet shot with creativity and attention to detail. We pride ourselves on our ability to consult and negotiate with our clients and where possible we will endeavour to attend your Wedding rehearsal, to meet with you and your partner to discuss the finer points of your day.

A professional camera operator using only the most up to date equipment will attend your Wedding day.

After filming we edit the footage to your specifications and tastes. We can add slow motion, text, soundtracks, special effects and even sub-titles. We can edit in any style that you prefer, from romantic to smooth, documentary to classic, fast paced or contemporary.

When we have completed your film we will send you a preview copy. This enables you to outline any changes that you would like to see and make suggestions for your final DVD.

Once we have your final approval we will then send you the finished project in presentation cases.

The end result is a Wedding film that you can enjoy with family and friends and be a lasting memory that will never fade.

Please find enclosed a price list outlining our package prices. Again, we are flexible and will be happy to discuss any special requirements that you may have for your day.

Finally, we offer you our congratulations and best wishes for your Wedding and wish you all the best for the future.

Yours Sincerely, The Onedayinmylife Productions Team
